SKILLS

Programming Languages

- Python
- Java
- C#
- C / C++
- SQL
- Bash

Tools & Technologies

- Git
- Docker
- Linux
- PostgreSQL
- MATLAB

Engineering & Sciences

- Digital Signal Processing (DSP)
- Statistical Estimation
- Signal Detection

Networking

- Network Protocols & TCP/IP
- System Administration
- WLAN & Radio

Soft Skills

- Continuous Learning
- Technical Curiosity
- Problem-Solving
- Agile Methodology

LANGUAGES

- French - Native language
- English - Professional level

PERSONAL QUALITIES

- Critical and scientific thinking
- Empathetic
- Teamwork
- Autonomy

INTERESTS

Robotics Club, Space Technologies, Quantum Computing, Artificial Intelligence

QUENTIN ARTIGALA

Software Engineer | Space Technology Enthusiast

Profile

Software engineering student at ENSEEIHT (Computer Science & Networks), passionate about innovative technologies for space and quantum computing. Skilled Python developer with hands-on experience in software engineering, digital signal processing and data analysis. Specialized in building robust applications, network architectures and signal identification.

Professional Experience

Software Engineering Consultant (Internship)

Toulouse INP - DSIN, Toulouse

2024 - 2027

- Delivered 3 complete software projects, from business requirements analysis to production deployment
- Supported the team in adopting new software development standards
- Developed React applications, optimizing internal process efficiency

Software Development Internship

Capgemini, Bordeaux

April 2024 - June 2024

- Resolved tickets on a web application by reproducing error scenarios and implementing fixes
- Tested and validated functional scenarios to ensure quality of deployed fixes
- Introduced Sourcery tool to the team to quickly improve Python code quality

Achievements & Key Projects

Runner-up European Robotics Soccer Championship

European Competition, Croatia

2023

- Won 2nd place at the European Cup against 20+ international teams
- Developed a predictive AI strategy in Python for autonomous goalkeeper, improving performance by 45%

Education

Engineering Diploma, Computer Science & Networks

ENSEEIHT - Toulouse INP, Toulouse

2024 - 2027

Relevant Courses:

- Fundamentals of Wireless Networks (WLAN): Radio Physics & Access Protocols
- Operations Research: Mathematical Modeling & Optimal Solution
- Statistical Estimation and Detection for Signal Processing

Bachelor's Degree in Computer Science (Accelerated 2-year program)

IUT of Bordeaux, Bordeaux

2022 - 2024

- Graduated with honors after intensive training in software development, network infrastructure and AI
- Direct admission to ENSEEIHT engineering school upon academic recommendation

Community Engagement

Mentor & Volunteer - Article 1 Association

France

2023 - 2024

- Mentored 5 students from disadvantaged backgrounds to promote equal opportunities in higher education
- Participated in 7 awareness actions promoting diversity in higher education
